Portlight Strategies is holding a series of Relief Walks to help support our disaster relief efforts for the under served and forgotten. The success of the Relief Walks is crucial in order for us to create a financial reserve so we can continue our disaster relief efforts and respond to the next disaster in a timely and strategic fashion. For more information please visit our website and select the Relief Walks link at the top of the page.

Since 1997, we have provided medical equipment to people with disabilities free of charge. Our post disaster relief efforts focus on people with disabilities, as well as outlying communities that are often forgotten by the major relief organization...

Our modest budget is raised exclusively from individuals and small businesses...

During our Hurricane Ike relief effort we delivered over \$500,000 worth of supplies to the rural areas and to the Houston disabilities community. Along with supplies, we also facilitated a Christmas party for the residents of Bridge City, Tx and a day of pizza for the hard hit Bolivar Peninsula.

Portlight Strategies is a 501c3 tax exempt non profit organization which provides relief to the forgotten and outlying populations in the wake of natural disasters. With your help we can continue our disaster relief efforts!
